THE NEW NOTE IN ROOM DECORATION

Illustration showing a living room with a floor of Dominion Inlaid Linoleum. The floor is decorated with a pattern of stars and squares. The room includes a fireplace, a sofa, and other furniture.

# DOMINION *Inlaid* LINOLEUM *is an Integral Part of Today's Home.*

**HOW TO CARE FOR  
LINOLEUM**  
The best method of caring for linoleum is to keep it clean and free from dirt. It should be washed with a solution of mild soap and water. Do not use oil or wax. Do not use a scrub brush. Do not use a vacuum cleaner. Do not use a steam mop. Do not use a hot water mop. Do not use a steam mop. Do not use a steam mop.

For more information, write to Dominion Oilcloth & Linoleum Co. Limited, Montreal, P.Q. or to your nearest Dominion agent.

Inlaid Linoleum does for more than provide a permanent, comfortable floor. It taps new wells of ingenuity in the development of room decoration. It gives fresh impetus to the interior decorator's imagination, suggesting new designs, and ensuring flexibility, life re-

straints imposed by ultra conservative materials, prompting floor treatments that spell life, freshness and sparkling originality—all at reasonable cost. Consult your floor covering dealer. You will find him very helpful in choosing smart room improvements for your home, based on Dominion Inlaid Linoleum

# Over cobblestones on the deserted downtown Toronto Esplanade

... BUT THE STUDEBAKER MIRACLE RIDE  
MADE IT SEEM LIKE LAKE SHORE DRIVE

"They call it a 'hard degree' road test" is happened one Sunday afternoon, "this delightful old gentleman told us. "My son asked me to go with him on a 'hard degree' road test and I agreed. I agreed in his eyes meant that the old-fashioned Esplanade in Toronto is a hard test. But even at a rapid rate of speed that new Studebaker didn't even pause as it 'got them in the money, bump-like road test'."

## Hydraulic brakes for safety

Safety for the driver and passengers. Safety for others on the road. That's what the new compressed hydraulic brakes in these new Studebaker Champions mean. You say safety, safety, safety is a word you hear every day.

**\$1083**  
STUDEBAKER CHAMPION  
EIGHT COASTAL TOURING

Twice making less than the money, saving trouble, taking that degree road test is just a matter of the right spirit in any new car.

The thrilling new line of domestic cars, constantly grows the Studebaker's greatest new Independent Phase Wheel suspension, for the first time in history, gives a combination of useful riding, smoothness and, electric handling which no other car in Canada can equal.

And who knows these new Studebaker Champions are made and set? How lovely they seem every corner we find. Bumped and splashed? How easy it is to drive them with their automatic automatic steering!

Smiles, strong actions, gold's strong bodies, so-called eyes and nose make you these new Champions, Commanders and Challengers a marvellous, that anyone's journey line.

And Studebaker's gold-endurance is evident not only in the chassis but in the bodies of steel reinforced by steel which have real points of steel welded to steel pillars.

On a Studebaker Champion for your next car. Drive as low as \$1083. Commanders as low as \$1112. Presidents as low as \$1111. — Always happily equipped in Fullerton, Del., including year. Single only to be added.

## Here's that new wheel suspension!

Studebaker's exclusive new Independent Phase Wheel suspension is a truly new, smooth, efficient and immediately strong. Not a too spring suspension for such large full springs.

## The King George V. Silver Jubilee Cancer Fund for Canada

THE world's greatest medical centers of the world, physicians and other scientists are at work night and day trying to find the cause and cure of cancer. When the bagged-for, worked-for and pay-for-for discovery is finally made, the whole world will be told of it by front-page headlines in newspapers, radio broadcasting and magazines.

Meanwhile science is making steady progress in fighting the disease which kills more people, past 40, in Canada than any other disease but one—heart disease. As in many other war against disease, the great weapons at present is education—spreading the knowledge that cancer in its early stages can often be destroyed by radium and X-rays or removed by surgery. But there is no proof that any drug, serum or local application can cure it.

Cancer is not contagious nor, in itself, hereditary. In early stages, as usually happens, that while cancer grows, like a thief in the night, attacking and robbing the sensory, short of time against it is saving thousands of lives. A complete health examination, aimed at time to locate the presence of the disease, is an important protection against cancer.

Modern science appeals to intelligence. Many extremely deadly cancer can be prevented by getting rid of cancerous growths. Especially is this true while they are local and confined to a small area, which is always the case at the start.

During the past three years rapid progress has been made in cancer prevention in Canada. Facilities for the early detection and treatment of cancer have been developed by all the Provincial Departments of Health in conjunction with Provincial Medical Associations and particularly with the Canadian Medical Association. Diagnostic clinics and treatment centers, with physicians on their staffs who are skilled in the early recognition and treatment of the disease, are being established throughout the country—but a great deal more remains to be done.

This year the British Empire celebrates the Twenty-fifth Anniversary of His Majesty's accession to the throne. With the approval of His Majesty, a fund to be known as The King George V. Silver Jubilee Cancer Fund for Canada has been established. The money obtained will be used entirely for cancer prevention and control in Canada.

## Because "the office couldn't spare him"

THIS MAN has received many a warning from his body that all was not well with him.

And he has been given many a warning by family and friends because of his do-or-die attitude. "I know, I know," he has replied, "but I haven't time to do anything about it. They have had the rubber powder around that it is a display of weakness to admit being sick."

Here you are the most—the man who had to be "on his toes" for the rest of his life. And the office will just so manage work.

Our him. The bitter truth is that the office will manage without him even if he never returns.

Clear his way have become almost impossible these past few years. Any number of people whose health has plunged for recovery, have been "on his toes" to do anything about it. They have had the rubber powder around that it is a display of weakness to admit being sick.

That, of course, is not the answer. If you have had warnings that something was wrong, the only

helping thing to do is to see your physician. These warnings may or may not indicate a serious disorder—your physician can tell. If he does, he can start you on the road to a cure or betterment of the condition. On the other hand, if those warnings indicate only some minor disturbance, aggravated perhaps by worry, he

can set your mind at rest and institute whatever corrective measures may be needed.

There's no good reason to stay away from the doctor—there is every good reason to go to him. And the sooner you go, the less likely it is that you will have to endure the possible serious consequences of neglect.

## His Lumbago Has Not Come Back

Keeps Free of It With  
**Kranchen**

There are many doctors about the effectiveness of the remedy this man uses against lumbago. Read his letter—

"About five years ago, I had a bad attack of lumbago. After being in hospital for two weeks, when I was discharged, I started taking **Kranchen** pills. After I had taken three or four, my back was completely free of lumbago. I could walk without limping, and I was able to go back to my regular work. I have been free of it ever since."

Why is it that **Kranchen** is so effective in keeping lumbago in bay? Simply because it gets into the very seat of the trouble and prevents the cause, which is an injured vertebra. The six active ingredients in **Kranchen** are pure and safe, and are proven to be a powerful remedy for all the signs of lumbago.
